

From naughty to nifty, noble to nefarious, the Notorious traveling exhibit introduces visitors to unforgettable Kansas characters. These interactive components are designed for all ages, to deepen the experience, challenge the visitor and offer tons of fun!

In the exhibit: Notorious offers three hands-on activities to spur engagement. Test your skill as an eyewitness with a screen-based puzzle. Then, get your hands on a set of dowsing rods and decide for yourself if they work. The jail cell offers a great photo opportunity for visitors. There's also a scavenger hunt to help visitors interact with the exhibit.

At home: The Notorious activity booklet is packed full of fun for puzzlers of all ages. It boasts seven activities. Kids will enjoy the maze, word search puzzle, matching game and more. Complete the dot to dot then color it in! There's more to do with this playful activity booklet, free with the exhibit, while supplies last. All activities and puzzles are also available in single page form.

In the classroom: Notorious provides four flexible, curriculum-based lesson plans. Make Your Own Mural leads students on a creative journey, using "Tragic Prelude" by John Stueart Curry as a model. The Debate lesson plan encourages critical thinking and research. The Detective Journal lesson plan exercises students' language arts muscles. Who is Notorious in Your Town? challenges students to create their own exhibit piece specific to their area.
